LATEST DEVELOPMENTS FROM THE LEADING PROVIDER OF WATER DISTRIBUTION PRODUCTS AND SERVICES

## GEARING UP FOR ACE 2019

We are gearing up for the upcoming AWWA Annual Convention & Exhibition (ACE) in Denver, Colorado. The event takes place June 9 – 12, 2019.

**Visit us at booth #2303** to check out the new products and technologies we're introducing including an advanced technology platform that will change the way your utility is able to look at your water infrastructure system.

Also **plan to stop by booth #823** to learn more about our recently acquired Krausz Industries® HYMAX® brand.

Be on the lookout for an invitation to our annual Customer Appreciation Event on June 10, 2019 at The ViewHouse, Ballpark location.

We look forward to seeing you in Denver!

## WATERONLINE.COM WEBINAR HIGHLIGHTS: ADVANCED PRESSURE CONTROL – WHERE TO START

**Source:** Mueller Water Products. For water utility leaders, consultants, and manufacturers, implementing a pressure management system within a water distribution system is a very important project. Speakers during Water Online's March 28, 2019 webinar shared best practices and lessons learned when updating the water system for the City of Asheville, NC.

Other topics covered during the webinar: AWWA M36 methodology, pressure-reducing valves, and recommendations on where to start in the implementation process. You can access the webinar recording by choosing the link below.

## A NEW SINGER PRODUCT ANIMATION: RECIRCULATION VALVES FOR PUMPING STATIONS

This new animation provides a clear application of Singer VFD control valve technology in combination with variable frequency drives (VFDs). It's also narrated to ensure precise details are not only shown but described. The animation is short but packed with helpful information.

# MUELLER® BRANDING UPDATE

In September 2018, we announced a rebrand and introduced our new logo design, brand architecture and guidelines.

As of April 2019, we've rebranded our trade show booth, presentations and letterhead. Additionally, collateral and websites for our Jones®, Pratt®, Echologics®, Milliken®, Singer® and Hydro Gate® brands have also been rebranded.

In the coming months, we will continue our rebranding efforts across our remaining brands.

# TWO NEW FACILITIES OPEN IN CANADA

**CALGARY PLANT:** In April 2018, Mueller Canada opened a new Calgary operational plant. The new plant ships hydrants assembled in Alberta which improves lead times when serving customers in Western Canada.

The Canadian Team sincerely thanks everyone involved with this project to help make it a success.

Pictured: Vincent Jenny, WHS staff/hydrant assembly; Michael Smith, Lead Hand Calgary; and Darryl Hill, Lead Hand Barrie strike a pose at the new Calgary facility holding the first hydrant work order. The P.O. was for 10 fire hydrants going to the Town of Abbotsford, British Columbia.

**NEW TORONTO OFFICE:** Mueller Water Products recently opened another new location in Toronto, Canada. The facility serves as a Mueller® Engineering Center of Excellence, focusing on the development of our Echologics leak detection and condition assessment technologies for water mains.

## **KRAUSZ® ARIEL, ISRAEL PLANT FEATURES NEW ROLL-FORMING TECHNOLOGY**

In mid-March of 2019, Krausz adopted a new roll-forming machine technology at its Ariel, Israel plant.

Roll-forming is a type of continuous rolling and bending of a long strip of steel (typically sheet or coiled) into needed cross-sections. The technology is considered the best option for producing constant profile parts with long lengths and in large quantities. The machine consolidates three different manufacturing streams into one and runs faster than traditional machines - producing 600+ pieces per hour in comparison to the standard 80 pieces per hour. Different product sizes can be specified with the push of a button.

**CONTACT KRAUSZ FOR MORE INFORMATION >>**

*Roll-forming machine technology merges three different manufacturing streams into one line.*

## NEED MORE INFORMATION?

If you need additional information, please contact your Mueller sales representative or Customer Service at (800) 423-1323, or visit [muellerwp.com](http://muellerwp.com).
